## Objective

Passionate Flutter Developer with expertise in mobile app development. Seeking a Flutter Developer position to apply my skills in creating innovative cross-platform applications while continuously expanding my knowledge of mobile technologies.

---

## Education

Faculty of Computers and Artificial Intelligence, University of Sadat City

2021 – 2025

---

## Courses

Flutter Developer Intern, DEPI

May 2024 – Nov 2023

Successfully participated in a Machine Learning course at the Faculty of Computers and Artificial Intelligence.

August - October 2024

---

## Projects

### Islami Application (Flutter):

January 2024 – March 2024

An Islamic app with five tabs: Settings, Qur'an, Hadith, Tasbeeh, and Radio (under development). Utilized Flutter\_native\_splash and Provider for state management and internationalized the app to support multiple languages.

### Todo App (Flutter):

April 2024 – June 2024

A task management app featuring user authentication (login, registration, email, and password verification), a home screen with a bottom navigation bar, task list with calendar, settings for language and mode switching, and a floating action button for adding new tasks.

### Movie App (Flutter):

July 2024 – September 2024

A dynamic platform for movie enthusiasts featuring sections for popular, new releases, and recommended movies, detailed movie pages, search and browse screens, and a watchlist. It supports English and Arabic, integrates APIs for movie data, uses Firebase for watchlist management, and follows clean code practices with Bloc and Repository patterns.

### News App (Flutter):

October 2024 – December 2024

An app for displaying news from multiple sources, featuring a simple and user-friendly interface. It supports both English and Arabic, integrates APIs for real-time news updates, and uses Firebase to save favorite articles.
